

## **WHEN MONEY RUNS OUR POLITICAL SYSTEM, WE ALL PAY A PERSONAL PRICE**

No matter what issue you care most about, the root cause of the problem can be traced back to corporations and the 1% bribing politicians with enormous sums of money.

## **THE SOLUTION IS TO PASS LOCAL LAWS, AND AMEND THE U.S. CONSTITUTION**

There are lots of local solutions like “Democracy Dollars” in Seattle, 6 to 1 matching for small contributions in NYC, and Clean Elections in Maine.

But the best way to get money out of politics is to amend the U.S. Constitution and overturn Supreme Court rulings which declared that:

### **Money is Free Speech and Corporations are People**

The best way to pass an Amendment is to demonstrate overwhelming public support.

That’s why we’re stamping money.

## STAMPEDE!

Every stamped bill gets seen by 875 people. There are over 100,000 people literally rubber stamping anti-corruption messages on paper currency. We're on our way to creating an unstoppable stampede of millions of miniature billboards.
